| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: a56a50e6

Historically, most conductors of major orchestras and opera companies have been European men, but a new, more diverse generation of artists is stepping up to the podium. Mexico’s Alondra de la Parra took over as conductor for the Queensland Symphony Orchestra in 2017, \_\_\_\_\_ and Colombia’s Lina Gonzalez-Granados did the same for the Los Angeles Opera in 2022.

Which choice completes the text with the most logical transition?

- A. in addition,
- B. lastly,
- C. granted,
- D. for instance,

ID: a56a50e6 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “For instance” logically signals that the details in this sentence—that Mexican conductor Alondra de la Parra and Colombian conductor Lina Gonzalez-Granados took new conducting positions—are examples supporting the previous claim about the new generation of artists.

Choice A is incorrect because “in addition” illogically signals that the details in this sentence about de la Parra and Gonzalez-Granados are merely additional facts related to the previous claim about the new generation of artists. Instead, they are examples supporting that claim. Choice B is incorrect because “lastly” illogically signals that the details in this sentence about de la Parra and Gonzalez-Granados are the last step or a concluding summary of the previous claim about the new generation of artists. Instead, they are examples supporting that claim. Choice C is incorrect because “granted” illogically signals that the details in this sentence about de la Parra and Gonzalez-Granados are exceptions to the previous claim about the new generation of artists. Instead, they are examples supporting that claim.

Question Difficulty: Hard

# Question ID 14bec4c8

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 14bec4c8

A turtle shell appears external to the animal, protecting its body like armor. \_\_\_\_\_ the shell is often incorrectly assumed to be an exoskeleton, a rigid outer casing like that of a crustacean or an insect, when in fact it is an endoskeleton, a part of the turtle’s internal bone structure, more akin to a spine or a pair of ribs.

Which choice completes the text with the most logical transition?

- A. That being said,
- B. However,
- C. For instance,
- D. Hence,

ID: 14bec4c8 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Hence" logically signals that the information in this sentence about turtle shells—that people incorrectly assume they are exoskeletons—is a consequence of the shells appearing external to the animal.

Choice A is incorrect because "that being said" illogically signals that this sentence qualifies or contrasts with the previous information about turtle shells appearing external to the animal. Instead, it presents a consequence of that information. Choice B is incorrect because "however" illogically signals that this sentence contrasts with the previous information about turtle shells appearing external to the animal. Instead, it presents a consequence of that information. Choice C is incorrect because "for instance" illogically signals that this sentence provides an example supporting the previous information about turtle shells appearing external to the animal. Instead, it presents a consequence of that information.

Question Difficulty: Hard

# Question ID 04b15c4f

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 04b15c4f

Upper-atmospheric jets—phenomena whereby electrical discharges cause narrow cones of blue light to briefly burst upward from the tops of thunderclouds—have been observed reaching the ionosphere. The extreme altitudes involved (the ionosphere begins about 80 km above Earth) mark these gigantic jets as outliers; \_\_\_\_\_ the majority of jets reach heights of only 20 to 50 km.

Which choice completes the text with the most logical transition?

- A. nevertheless,
- B. consequently,
- C. indeed,
- D. in addition,

ID: 04b15c4f Answer

Correct Answer: C

Rationale

Choice C is the best answer. “Indeed” logically signals that the information that follows—that the majority of jets reach heights of only 20 to 50 km—offers additional emphasis in support of the previous claim that jets reaching the ionosphere (about 80 km above Earth) are outliers.

Choice A is incorrect because “nevertheless” illogically signals that the information about most jets reaching heights of only 20 to 50 km contrasts with the previous claim that jets reaching the ionosphere are outliers. Instead, it provides additional emphasis in support of that claim. Choice B is incorrect because “consequently” illogically signals that the information about most jets reaching heights of only 20 to 50 km is a consequence, or result, of some jets being outliers. Instead, it offers additional emphasis in support of the claim that jets reaching the ionosphere are outliers. Choice D is incorrect because “in addition” illogically signals that the information about most jets reaching heights of only 20 to 50 km merely adds to the previous claim that jets reaching the ionosphere are considered outliers. Instead, it provides additional emphasis in support of that claim.

Question Difficulty: Hard

# Question ID f87d07d3

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: f87d07d3

The mineral mtorolite is most commonly found in Zimbabwe. Mtorolite is cryptocrystalline, meaning that its crystalline structure is so fine that the individual crystals cannot be distinguished by the naked eye or even under a microscope. The crystals in microcrystalline minerals are also not visible to the naked eye; \_\_\_\_\_ they can usually be seen under a microscope.

Which choice completes the text with the most logical transition?

- A. thus,
- B. for example,
- C. that said,
- D. similarly,

ID: f87d07d3 Answer

Correct Answer: C

Rationale

Choice C is the best answer because "that said" logically signals that the information that follows—that the crystals of microcrystalline minerals can be seen with a microscope—is an exception to the previous information about the crystalline structure of minerals not being visible under a microscope.

Choice A is incorrect because "thus" illogically signals that the information that follows is a direct result or consequence of the fact that the crystals of microcrystalline minerals aren't visible to the naked eye. Instead, the fact that they can be seen under a microscope is an exception to the previous information about crystalline minerals. Choice B is incorrect because "for example" illogically signals that the information that follows exemplifies the fact that the crystals of microcrystalline minerals aren't visible to the naked eye. Instead, the fact that they can be seen under a microscope is an exception to the previous information about crystalline minerals. Choice D is incorrect because "similarly" illogically signals that the information that follows is similar or comparable to the fact that the crystals of microcrystalline minerals aren't visible to the naked eye. Instead, the fact that they can be seen under a microscope is an exception to the previous information about crystalline minerals.

Question Difficulty: Hard

# Question ID 410d7d28

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 410d7d28

In her poetry collection *Thomas and Beulah*, Rita Dove interweaves the titular characters’ personal stories with broader historical narratives. She places Thomas’s journey from the American South to the Midwest in the early 1900s within the larger context of the Great Migration. \_\_\_\_\_ Dove sets events from Beulah’s personal life against the backdrop of the US Civil Rights Movement.

Which choice completes the text with the most logical transition?

- A. Specifically,
- B. Thus,
- C. Regardless,
- D. Similarly,

ID: 410d7d28 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “Similarly” logically signals that the information in the sentence—that Dove situates Beulah’s life in the context of the US Civil Rights Movement—is similar to the previous information about Thomas and the Great Migration. Both sentences support the first sentence’s claim that Dove portrays her characters in the context of broader historical narratives.

Choice A is incorrect because “specifically” illogically signals that the information about Beulah in this sentence provides specific details elaborating on the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice B is incorrect because “thus” illogically signals that the information about Beulah in this sentence is a result or consequence of the previous information about Thomas. Instead, it’s similar to the previous information about Thomas. Choice C is incorrect because “regardless” illogically signals that the information about Beulah in this sentence is true despite the previous information about Thomas. Instead, it’s similar to the previous information about Thomas.

Question Difficulty: Hard

# Question ID 44a3dfb0

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 44a3dfb0

One proposed boundary between Earth’s atmosphere and outer space is the Kármán line, 100 km above sea level. Based on the work of physicist Theodore von Kármán, this line marks the theoretical height at which an aircraft no longer remains aloft using the force of lift. \_\_\_\_\_ an aircraft sustains flight past this altitude primarily by its velocity, reaching a speed sufficient to maintain an orbit but not to generate enough lift from the thin air.

Which choice completes the text with the most logical transition?

- A. For instance,
- B. Instead,
- C. Granted,
- D. Regardless,

ID: 44a3dfb0 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Instead” logically signals that the information in this sentence—that an aircraft sustains flight past the Kármán line primarily by its velocity—is an alternative means of sustaining flight past this line, which the previous sentence indicates is the theoretical height at which an aircraft no longer remains aloft by using the force of lift.

Choice A is incorrect because “for instance” illogically signals that the information about an aircraft sustaining flight by velocity exemplifies the previous information about the Kármán line marking the theoretical height at which an aircraft no longer remains aloft using lift. Rather, the sentence describes an alternative means of sustaining flight past this line. Choice C is incorrect because “granted” illogically signals that the information about an aircraft sustaining flight by velocity is a concession or acknowledgment that qualifies the previous information about the Kármán line marking the theoretical height at which an aircraft no longer remains aloft using lift. Rather, the sentence describes an alternative means of sustaining flight past this line. Choice D is incorrect because “regardless” illogically signals that the information about an aircraft sustaining flight by velocity is true despite the previous information about the Kármán line marking the theoretical height at which an aircraft no longer remains aloft using lift. Rather, the sentence describes an alternative means of sustaining flight past this line.

Question Difficulty: Hard

# Question ID e5e5f6f6

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: e5e5f6f6

When designing costumes for film, American artist Suttirat Larlarb typically custom fits the garments to each actor. \_\_\_\_\_ for the film *Sunshine*, in which astronauts must reignite a dying Sun, she designed a golden spacesuit and had a factory reproduce it in a few standard sizes; lacking a tailor-made quality, the final creations reflected the ungainliness of actual spacesuits.

Which choice completes the text with the most logical transition?

- A. Nevertheless,
- B. Thus,
- C. Likewise,
- D. Moreover,

ID: e5e5f6f6 Answer

Correct Answer: A

Rationale

Choice A is the best answer. “Nevertheless” logically signals that the information in this sentence—that the spacesuits Suttirat Larlarb designed for the film *Sunshine* were made in standard sizes in a factory—presents a notable exception to Larlarb’s typical approach of custom-fitting garments to actors, which is described in the previous sentence.

Choice B is incorrect because “thus” illogically signals that the information in this sentence is a result or consequence of the previous information about Larlarb’s typical approach of custom-fitting garments to actors. Instead, it presents a notable exception to Larlarb’s typical approach. Choice C is incorrect because “likewise” illogically signals that the information in this sentence is similar to the previous information about Larlarb’s typical approach of custom-fitting garments to actors. Instead, it presents a notable exception to Larlarb’s typical approach. Choice D is incorrect because “moreover” illogically signals that the information in this sentence merely adds to the previous information about Larlarb’s typical approach of custom-fitting garments to actors. Instead, it presents a notable exception to Larlarb’s typical approach.

Question Difficulty: Hard

# Question ID 9363c6bb

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 9363c6bb

Economist Elinor Ostrom’s studies of communities around the world have empirically demonstrated that common pool resources, such as grazing lands, can be sustainably managed by the people who use them (rather than through private entities or centralized governments). \_\_\_\_\_ Ostrom’s work is a repudiation of the “tragedy of the commons,” the view that individuals will inevitably overexploit a finite shared resource if given unfettered access to it.

Which choice completes the text with the most logical transition?

- A. By contrast,
- B. For example,
- C. That said,
- D. As such,

ID: 9363c6bb Answer

Correct Answer: D

Rationale

Choice D is the best answer. "As such" correctly signals that the claim in this sentence—that Ostrom’s work is a repudiation of the "tragedy of the commons" view—follows logically from the information about Ostrom’s studies in the previous sentence. According to that sentence, Ostrom’s studies demonstrate that common pool resources can in fact be sustainably managed by the people who use them.

Choice A is incorrect because "by contrast" illogically signals that the information in this sentence contrasts with the information about Ostrom’s studies in the previous sentence. Instead, the claim that Ostrom’s work repudiates the "tragedy of the commons" view follows logically from that information. Choice B is incorrect because "for example" illogically signals that the claim in this sentence exemplifies the information about Ostrom’s studies in the previous sentence. Instead, the claim that Ostrom’s work repudiates the "tragedy of the commons" view follows logically from that information. Choice C is incorrect because "that said" illogically signals that the information in this sentence is an exception or caveat to the information about Ostrom’s studies in the previous sentence. Instead, the claim that Ostrom’s work repudiates the "tragedy of the commons" view follows logically from that information.

Question Difficulty: Hard

# Question ID 33a93756

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 33a93756

In the late twentieth century, scholars directed much discussion toward issues of spatiality. Adherents to quantitative analytical approaches delineated space with the use of GIS spatial technologies; \_\_\_\_\_ cultural geographer Doreen Massey defined space as the product of “an ever-shifting social geometry of power and signification,” focusing instead on socio-political forces.

Which choice completes the text with the most logical transition?

- A. for example,
- B. by contrast,
- C. as such,
- D. likewise,

ID: 33a93756 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "By contrast" logically signals that the information about how Massey defined space—by focusing on socio-political forces—contrasts with the information in the previous clause, which discusses quantitative analytical approaches and spatial technologies.

Choice A is incorrect because "for example" illogically signals that the information that follows in the sentence exemplifies the quantitative analytical approaches to defining space described previously. Instead, the information about Massey’s socio-political focus presents a contrasting approach. Choice C is incorrect because "as such" illogically signals that the information that follows in the sentence is a direct result or logical consequence of the quantitative analytical approaches to defining space described previously. Instead, the information about Massey’s socio-political focus presents a contrasting approach. Choice D is incorrect because "likewise" illogically signals that the information that follows in the sentence is similar to the quantitative analytical approaches to defining space described previously. Instead, the information about Massey’s socio-political focus presents a contrasting approach.

Question Difficulty: Hard

# Question ID 9c159f61

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 9c159f61

Long thought to be sessile (immobile), adult *Chelonibia testudinaria*, barnacles that adhere to sea turtle shells, have been observed to shift slightly in position over time—a phenomenon that has been attributed to the barnacles’ passive displacement by water currents. \_\_\_\_\_ a research team found that adult *C. testudinaria* moved toward the heads of their sea turtle hosts and thus against the prevailing water flow, behavior consistent with self-initiated locomotion.

Which choice completes the text with the most logical transition?

- A. Contrary to this phenomenon,
- B. Undermining this explanation,
- C. Drawing a similar conclusion,
- D. Confirming this hypothesis,

ID: 9c159f61 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Undermining this explanation” logically signals that the information in this sentence—that adult *Chelonibia testudinaria* showed behavior consistent with self-initiated locomotion—undermines or weakens the previous explanation that barnacle movement was a result of passive displacement by water currents.

Choice A is incorrect because “contrary to this phenomenon” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion opposes the previous information about barnacles shifting slightly in position over time. Instead, the sentence undermines or weakens the previous claim about passive displacement. That is, the sentence doesn’t oppose the fact that the barnacles shifted position: it challenges the previous sentence’s explanation for the movement. Choice C is incorrect because “drawing a similar conclusion” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion is similar to the previous conclusion that barnacle movement is the result of passive displacement. Instead, the sentence undermines or weakens the previous sentence’s explanation for how the barnacles moved. Choice D is incorrect because “confirming this hypothesis” illogically signals that the information in this sentence about barnacles exhibiting behavior consistent with self-initiated locomotion confirms the hypothesis in the previous sentence that the barnacle movement was the result of passive displacement. Instead, the sentence undermines or weakens the previous sentence’s explanation for how the barnacles moved.

Question Difficulty: Hard

# Question ID 6f03007c

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 6f03007c

In astrophysics, a ring of debris orbiting a larger object within the object’s Roche limit is expected to persist as a ring, whereas a ring of debris orbiting outside this limit would likely accrete into a satellite (e.g., a moon). Bruno Morgado and colleagues, \_\_\_\_\_ detected a dense ring of material orbiting the trans-Neptunian object Quaoar at a distance of 2,500 miles, well outside the calculated Roche limit of 1,100 miles, that has remained intact.

Which choice completes the text with the most logical transition?

- A. though,
- B. for example,
- C. fittingly,
- D. likewise,

ID: 6f03007c Answer

Correct Answer: A

Rationale

Choice A is the best answer. “Though” logically signals that the information in this sentence—that Morgado and colleagues detected a dense ring orbiting outside the Roche limit that remained intact—presents an exception to the previous sentence’s claim about debris orbiting outside an object’s Roche limit. Such debris would be expected to accrete into a satellite, not remain intact as a ring.

Choice B is incorrect because “for example” illogically signals that the information about Morgado’s discovery exemplifies the previous sentence’s claim about debris orbiting outside an object’s Roche limit. Instead, the sentence presents an exception to the claim. Choice C is incorrect because “fittingly” illogically signals that the information about Morgado’s discovery aligns with the previous sentence’s claim about debris orbiting outside an object’s Roche limit. Instead, the sentence presents an exception to the claim. Choice D is incorrect because “likewise” illogically signals that the information about Morgado’s discovery is similar to the previous sentence’s claim about debris orbiting outside an object’s Roche limit. Instead, the sentence presents an exception to the claim.

Question Difficulty: Hard

# Question ID f99639a1

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: f99639a1

When one looks at the dark craggy vistas in Hitoshi Fugo’s evocative photo series, one’s mind might wander off to the cratered surfaces of faraway planets. \_\_\_\_\_ it’s the series’ title, *Flying Frying Pan*, that brings one back to Earth, reminding the viewer that each photo is actually a close-up view of a familiar household object: a frying pan.

Which choice completes the text with the most logical transition?

- A. Consequently,
- B. Alternatively,
- C. Ultimately,
- D. Additionally,

ID: f99639a1 Answer

Correct Answer: C

Rationale

Choice C is the best answer. The first sentence describes an experience that the viewer has when they’re looking at the photos: they imagine other planets. This sentence describes an experience that the viewer has afterward: the title reminds them that the photos are of frying pans, bringing them back to reality. “Ultimately” is a transition that means “eventually” or “in the end,” so it fits the context perfectly.

Choice A is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense here. The viewer imagining other planets when they’re looking at the photos doesn’t cause the title to bring them back to reality. Choice B is incorrect. This choice uses a transition that indicates another option or possibility, which doesn’t make sense here. Rather, the viewer has both experiences: first the viewer imagines that they’re looking at another planet, and then the title reminds them that it’s just a frying pan. Choice D is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. But the viewer’s experience in the second sentence is actually the opposite of the viewer’s experience in the first sentence. In the first sentence, the viewer is imagining that they’re seeing a landscape from another planet. In the second sentence, the viewer is reminded that they’re looking at a frying pan.

Question Difficulty: Hard

# Question ID 0ed087c7

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 0ed087c7

To perform a quad axel, a figure skater must leap into the air and complete four and a half rotations before landing, an extreme feat. \_\_\_\_\_ in 2022, when 17-year-old Ilia Malinin landed the first quad axel—considered the most difficult quad jump—in a high-level competition, the audience was left awestruck.

Which choice completes the text with the most logical transition?

- A. Moreover,
- B. Fittingly,
- C. Next,
- D. However,

ID: 0ed087c7 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Fittingly" logically signals that the information in this sentence—that the audience was amazed when Malinin landed the first quad axel—describes a suitable or appropriate reaction to the completion of this extremely difficult jump.

Choice A is incorrect. "Moreover" illogically signals that the information in this sentence merely adds to the previous information about the difficulty of completing a quad axel. Instead, the audience’s amazement is a suitable or appropriate reaction to this accomplishment. Choice C is incorrect. "Next" illogically signals that the information in this sentence is simply the next step in a process. Instead, the audience’s amazement is a suitable or appropriate reaction to the accomplishment. Choice D is incorrect. "However" illogically signals that the information in this sentence is in contrast or an exception to the difficulty of completing a quad axel. Instead, the audience’s amazement is a suitable or appropriate reaction to this accomplishment.

Question Difficulty: Hard

# Question ID 3b3445ed

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 3b3445ed

Upon first approaching artist Kurt Wenner’s *Dies Irae*, a colorful scene painted on the surface of a cobblestone street in Mantua, Italy, one might assume a deep hole filled with life-sized, classically styled sculptures had opened up in the street. \_\_\_\_\_ by expertly applying the principles of perspective, Wenner created merely the illusion of depth.

Which choice completes the text with the most logical transition?

- A. Additionally,
- B. On the contrary,
- C. As a result,
- D. Next,

ID: 3b3445ed Answer

Correct Answer: B

Rationale

Choice B is the best answer. "On the contrary" logically signals that the information in this sentence—that *Dies Irae*’s appearance of depth is merely an illusion—contrasts with the previous statement about a viewer’s possible assumption regarding the street painting.

Choice A is incorrect because "additionally" illogically signals that this sentence is simply additional information about a viewer’s possible assumption regarding the street painting. Instead, the information about how Wenner achieved the illusion of depth contrasts with the previous sentence’s description of the illusion. Choice C is incorrect because "as a result" illogically signals that the information in this sentence is a result of, or caused by, a viewer’s possible assumption regarding the street painting. Instead, the information about how Wenner achieved the illusion of depth contrasts with the previous sentence’s description of the illusion. Choice D is incorrect because "next" illogically signals that the information in this sentence is the next step in a process. Instead, the information about how Wenner achieved the illusion of depth contrasts with the previous sentence’s description of the illusion.

ID: 0d59b214

In *Color Charts: A History* (2024), anthropologist Anne Varichon uses vivid prose to describe various systems and tools that have been used over the past few centuries for categorizing colors. \_\_\_\_\_ Varichon’s book features many high-quality images of these color presentation tools—from fanlike arrangements of hued fabric swatches to clusters of dyed feathers.

Which choice completes the text with the most logical transition?

- A. Consequently,
- B. Additionally,
- C. That said,
- D. Specifically,

ID: 0d59b214 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Additionally” logically signals that the information in this sentence—that Varichon’s book features many high-quality images of color presentation tools—is an additional feature of the book, supplementing the vivid prose descriptions of these tools mentioned in the previous sentence.

Choice A is incorrect because “consequently” illogically signals that the information about the book’s high-quality images is a result or consequence of the previous statement about Varichon’s vivid prose descriptions. Instead, the images are an additional feature of the book. Choice C is incorrect because “that said” illogically signals that the information about the book’s high-quality images is an exception to or qualification of the previous statement about Varichon’s vivid prose descriptions. Instead, the images are an additional feature of the book. Choice D is incorrect because “specifically” illogically signals that the information about the book’s high-quality images provides specific, precise details about the vivid prose descriptions mentioned in the previous sentence. Instead, the images are an additional feature of the book.

Question Difficulty: Hard

# Question ID c6b6128f

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: c6b6128f

Seismologists Kaiqing Yuan and Barbara Romanowicz have proposed that the magma fueling Iceland’s more than 30 active volcano systems emerges from deep within Earth. The great depths involved—nearly 3,000 km—mark Iceland’s volcanoes as extreme outliers; \_\_\_\_\_ many of Earth’s volcanoes are fed by shallow pockets of magma found less than 15 km below the surface.

Which choice completes the text with the most logical transition?

- A. indeed,
- B. nevertheless,
- C. in addition,
- D. consequently,

ID: c6b6128f Answer

Correct Answer: A

Rationale

Choice A is the best answer. The second part of the sentence says that many volcanoes use shallow pockets of magma. This is an elaboration of the same underlying idea from the first part of the sentence, which says that the super deep magma of Icelandic volcanoes’ makes them outliers. “Indeed” is a transition used for elaborating on the same idea, so it fits the context perfectly.

Choice B is incorrect. This choice uses a disagreement transition. But these two parts of the sentence agree with each other, so “nevertheless” doesn’t make sense. Choice C is incorrect. This choice uses a transition that indicates the addition of a new idea. But the second part of the sentence isn’t adding a new idea: it’s elaborating on the same idea expressed in the first part of the sentence. Choice D is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense here. The fact that Iceland’s deep-magma volcanoes are outliers doesn’t cause many other volcanoes to get fed by shallow pockets of magma.

Question Difficulty: Hard

# Question ID 57949c2b

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 57949c2b

A staunch supporter of women’s voting rights, Wilhelmina Kekelaokalaninui Widemann Dowsett sought to coordinate the efforts of suffragists in her native Hawai’i. \_\_\_\_\_ in 1912, she founded the National Women’s Equal Suffrage Association of Hawai’i, an organization that lobbied for women’s voting rights in the US territory.

Which choice completes the text with the most logical transition?

- A. In other words,
- B. Conversely,
- C. To that end,
- D. Alternatively,

ID: 57949c2b Answer

Correct Answer: C

Rationale

Choice C is the best answer. “To that end” logically signals that the information in this sentence—that Dowsett founded the National Women’s Equal Suffrage Association of Hawai’i—describes an action Dowsett took to achieve the goal stated in the previous sentence: to coordinate the efforts of suffragists in Hawai’i.

Choice A is incorrect because “in other words” illogically signals that the information in this sentence about Dowsett founding a women’s suffrage association is a paraphrase or restatement of the previous information about Dowsett seeking to coordinate suffragists’ efforts. Instead, the sentence describes a specific action Dowsett took to achieve this goal. Choice B is incorrect because “conversely” illogically signals that the information in this sentence about Dowsett founding a women’s suffrage association contrasts with the previous information about Dowsett seeking to coordinate suffragists’ efforts. Instead, the sentence describes a specific action Dowsett took to achieve this goal. Choice D is incorrect because “alternatively” illogically signals that the information in this sentence about Dowsett founding a women’s suffrage association presents an alternative to her seeking to coordinate suffragists’ efforts. Instead, the sentence describes a specific action Dowsett took to achieve this goal.

Question Difficulty: Hard

# Question ID f3aa5f58

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: f3aa5f58

When printing paper money for the colony of Pennsylvania in the 1730s, Benjamin Franklin—then a Philadelphia shop owner—took steps to combat the circulation of counterfeit notes, such as weaving blue threads and muscovite (a reflective mineral) into the paper he used. \_\_\_\_\_ he stamped the notes with detailed imprints of sage leaves that proved difficult for forgers to replicate.

Which choice completes the text with the most logical transition?

- A. Specifically,
- B. That said,
- C. For example,
- D. Moreover,

ID: f3aa5f58 Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Moreover" logically signals that the information in this sentence—that Franklin stamped imprints on paper money to make forgery more difficult—adds to the previous information by describing Franklin’s other strategy for combatting forgers: weaving materials into the paper used for printing money.

Choice A is incorrect because "specifically" illogically signals that the information in this sentence provides specific, precise details elaborating on the previous information about Franklin’s other strategy for combatting forgers (weaving materials into paper). Instead, this information about stamping imprints on money adds new information. Choice B is incorrect because "that said" illogically signals that the information in this sentence is an exception to the previous information about Franklin’s other strategy for combatting forgers (weaving materials into paper). Instead, this information about stamping imprints on money adds new information. Choice C is incorrect because "for example" illogically signals that the information in this sentence serves as an example of the previous information about Franklin’s other strategy for combatting forgers (weaving materials into paper). Instead, this information about stamping imprints on money adds new information.

Question Difficulty: Hard

# Question ID 8f3ad8e1

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 8f3ad8e1

Modernista architects championed nature in their designs. \_\_\_\_\_ the wavy staircase and ornate floral tilework of Hospital de Sant Pau, a Modernista hospital designed by Lluís Domènech i Montaner, couldn't exactly grow in a forest. Still, one sees natural influences in Domènech i Montaner's penchant for curves (rather than right angles) and plant- and animal-inspired flourishes.

Which choice completes the text with the most logical transition?

- A. Furthermore,
- B. Similarly,
- C. Of course,
- D. Thus,

ID: 8f3ad8e1 Answer

Correct Answer: C

Rationale

Choice C is the best answer. "Of course" logically signals that the information in this sentence—that "the wavy staircase and ornate floral tilework" of the Modernista hospital couldn't actually grow in a forest—acknowledges an obvious limitation of, or qualification to, the previous claim that Modernista architects championed nature in their designs.

Choice A is incorrect because "furthermore" illogically signals that the information in this sentence merely adds to the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features. Choice B is incorrect because "similarly" illogically signals that the information in this sentence is similar to the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features. Choice D is incorrect because "thus" illogically signals that the information in this sentence is a result of the previous claim that Modernista architects championed nature in their designs. Instead, the sentence acknowledges an obvious limitation in how literally that natural influence was expressed in the hospital's features.

Question Difficulty: Hard

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 81be2765

Charles Demuth’s 1931 painting *Chimney and Water Tower* is a classic Precisionist work. The Precisionists strove for cold, machine-like perfection, with crisp lines, geometric shapes, and smooth, brushstroke-free surfaces. \_\_\_\_\_ Precisionist works often feature skyscrapers, bridges, and factories, highlighting these angular structures’ engineered symmetry.

Which choice completes the text with the most logical transition?

- A. Accordingly,
- B. In the end,
- C. That said,
- D. However,

ID: 81be2765 Answer

Correct Answer: A

Rationale

Choice A is the best answer. “Accordingly” logically signals that the information in this sentence—that Precisionist works often feature angular, symmetrical structures, such as skyscrapers, bridges, and factories—is in accordance with the previous claim about the Precisionist style of “cold, machine-like perfection, with crisp lines, geometric shapes, and smooth, brushstroke-free surfaces.”

Choice B is incorrect because “in the end” illogically signals that the information in this sentence is a final conclusion or summary of the previous claim about the Precisionist style. Instead, the sentence describes features in Precisionist works that are in accordance with that style. Choice C is incorrect because “that said” illogically signals that the information in this sentence is an exception to or qualification of the previous claim about the Precisionist style. Instead, the sentence describes features in Precisionist works that are in accordance with that style. Choice D is incorrect because “however” illogically signals that the information in this sentence contrasts with the previous claim about the Precisionist style. Instead, the sentence describes features in Precisionist works that are in accordance with that style.

Question Difficulty: Hard

# Question ID cd1a97d2

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: cd1a97d2

In Annie Dillard’s *Pilgrim at Tinker Creek*—where, early on, the author marvels at a single goldfish’s delicate fins but later winces when imagining a horde of goldfish laying and eating their own eggs—Dillard struggles to reconcile the complicated juxtapositions of the natural world. \_\_\_\_\_ nature’s mesmerizing intricacy and pitiless harshness prove inextricably linked for Dillard, like “two branches of the same creek.”

Which choice completes the text with the most logical transition?

- A. To that end,
- B. Ultimately,
- C. Moreover,
- D. Hence,

ID: cd1a97d2 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Ultimately” logically signals that the information in this sentence—that, for Dillard, nature’s mesmerizing intricacy and pitiless harshness are inextricably linked—is the final conclusion or realization reached after her struggle to reconcile the juxtapositions of the natural world mentioned in the previous sentence.

Choice A is incorrect because “to that end” illogically signals that linking nature’s intricacy and harshness was Dillard’s deliberate goal or purpose in struggling to reconcile nature’s juxtapositions. Instead, the sentence presents her final realization after that struggle. Choice C is incorrect because “moreover” illogically signals that the information in this sentence merely adds to Dillard’s struggle to reconcile nature’s juxtapositions mentioned in the previous sentence. Instead, the sentence presents her final realization after that struggle. Choice D is incorrect because “hence” illogically signals that nature’s intricacy and harshness being linked is a direct consequence of Dillard’s struggle to reconcile the juxtapositions mentioned in the previous sentence. Instead, the sentence presents her final realization after that struggle.

Question Difficulty: Hard

# Question ID 867ceff8

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 867ceff8

The Sun and other stars are powered by nuclear fusion reactions, in which two atoms collide to form a single heavier atom, releasing energy. Scientists have long believed that fusion has the potential to meet humanity’s clean energy needs. \_\_\_\_\_ prior to December 2022, no fusion reaction in a laboratory setting had ever generated a net energy gain.

Which choice completes the text with the most logical transition?

- A. For this reason,
- B. Moreover,
- C. Specifically,
- D. That said,

ID: 867ceff8 Answer

Correct Answer: D

Rationale

Choice D is the best answer. Scientists believe in fusion’s potential as an energy source, but have struggled to actually make it work—in other words, there is a contradiction between scientists’ beliefs and their reality. “That said” is a disagreement transition that works perfectly in this context.

Choice A is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense here. Scientists not being able to generate extra energy from lab fusion reactions isn’t an effect of them believing in fusion’s potential. Choice B is incorrect. This transition indicates the addition of another supporting point. But this sentence is not adding a supporting point to the previous sentence—scientists not being able to successfully generate energy from fusion isn’t another point in favor of fusion meeting humanity’s clean energy needs. Choice C is incorrect. This choice uses a transition that introduces or elaborates on a particular example. But this sentence doesn’t give an example of scientists’ belief in fusion’s potential to meet humanity’s clean energy needs—in fact, it contrasts that optimistic belief with the reality of past failures to successfully employ fusion for energy production.

Question Difficulty: Hard

# Question ID 9579edb4

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 9579edb4

Magnetic levitation (maglev) trains are suspended above a track by powerful electromagnets, reducing friction and thus allowing for much faster speeds. Though maglev advocates in the US have long imagined these trains crisscrossing the country, their dream remains unrealized. \_\_\_\_\_ of the handful of maglev trains currently in operation, all are in Asia.

Which choice completes the text with the most logical transition?

- A. In fact,
- B. To that end,
- C. Nevertheless,
- D. That said,

ID: 9579edb4 Answer

Correct Answer: A

Rationale

Choice A is the best answer. This sentence emphasizes just how far maglev advocates’ dreams are from coming true. “In fact” is a transition used to emphasize the truth of a statement that modifies the previous statement and therefore fits perfectly in this context.

Choice B is incorrect. This choice uses a cause-and-effect transition, which doesn’t make sense here. Maglev advocates’ dream remaining unrealized would not cause there to be only a few maglev trains, all located in Asia. Choice C is incorrect. This choice uses a disagreement transition, which doesn’t make sense here. In fact, this sentence agrees with the previous sentence—both talk about how maglev trains are far from becoming common in the US. Choice D is incorrect. This choice uses a disagreement transition, which doesn’t make sense here. In fact, this sentence agrees with the previous sentence—both talk about how maglev trains are far from becoming common in the US.

Question Difficulty: Hard

# Question ID c5423706

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: c5423706

In a heated debate in biogeography, the field is divided between dispersalists and vicariancists. \_\_\_\_\_ there are those who argue that dispersal is the most crucial determining factor in a species’ distribution, and those who insist that vicariance (separation due to geographic barriers) is. Biogeographer Isabel Sanmartín counts herself among neither.

Which choice completes the text with the most logical transition?

- A. Furthermore,
- B. By contrast,
- C. Similarly,
- D. That is,

ID: c5423706 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “That is” logically signals that the information in this sentence, which explains the difference between the dispersalists’ position and the vicariancists’ position, clarifies the terms of the debate between dispersalists and vicariancists introduced in the previous sentence.

Choice A is incorrect because “furthermore” illogically signals that the information in this sentence is merely additional to (and separate from) the information in the previous sentence about the debate between dispersalists and vicariancists. Instead, the sentence clarifies the terms of the debate, explaining the difference between the dispersalists’ position and the vicariancists’ position. Choice B is incorrect because “by contrast” illogically signals that the information in this sentence contrasts with the information in the previous sentence. Instead, the sentence clarifies the terms of the debate between dispersalists and vicariancists introduced in the previous sentence. Choice C is incorrect because “similarly” illogically signals that the information in this sentence is merely similar to (and separate from) the information in the previous sentence about the debate between dispersalists and vicariancists. Instead, the sentence clarifies the terms of the debate, explaining the difference between the dispersalists’ position and the vicariancists’ position.

Question Difficulty: Hard

# Question ID 5efdc098

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 5efdc098

In Asiya Wadud’s 2022 poem “Shorn, Treaded Red,” the poet contemplates a painting that has inspired her: Etel Adnan’s 2020 work *Satellites 27*. The painting, which features overlapping geometric shapes, fuels the poem’s exploration of temporality and identity. \_\_\_\_\_ in responding to Adnan’s artwork, Wadud’s poem reflects on the relationship between poetry and other art forms.

Which choice completes the text with the most logical transition?

- A. In other words,
- B. For instance,
- C. What’s more,
- D. Conversely,

ID: 5efdc098 Answer

Correct Answer: C

Rationale

Choice C is the best answer. "What’s more" logically signals that this sentence introduces an additional aspect of Wadud’s poem beyond what was previously discussed. While the previous sentence establishes that Adnan’s painting has inspired "the poem’s exploration of temporality and identity," this sentence provides a separate, additional claim about the poem: that it reflects on poetry’s relationship to other art forms.

Choice A is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous point about how Adnan’s painting has inspired "the poem’s exploration of temporality and identity." Instead, the sentence provides a separate, additional claim about the poem. Choice B is incorrect because "for instance" illogically signals that the information in this sentence supports the previous point about "the poem’s exploration of temporality and identity" by providing an example. Instead, the sentence provides a separate, additional claim about the poem. Choice D is incorrect because "conversely" illogically signals that the information in this sentence is contrary to the previous point about how Adnan’s painting has inspired "the poem’s exploration of temporality and identity." Instead, the sentence provides a separate, additional claim about the poem.

Question Difficulty: Hard

# Question ID e6af160c

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: e6af160c

Ugandan American professor Peter Nazareth believed that Elvis Presley’s music is best understood not as a homogeneous collection but as an anthology (because Elvis showcased the contributions of a wide range of gospel, blues, and rock artists). \_\_\_\_\_ Nazareth entitled his college course on Elvis and his music, which focused on Elvis’s many musical influences, “Elvis as Anthology.”

Which choice completes the text with the most logical transition?

- A. To that end,
- B. In sum,
- C. That is,
- D. In addition,

ID: e6af160c Answer

Correct Answer: A

Rationale

Choice A is the best answer. "To that end" logically signals that the activity described in this sentence—Nazareth titling his course "Elvis as Anthology"—is meant to further Nazareth’s goal of helping others understand Presley’s music as an anthology with a wide range of influences.

Choice B is incorrect. "In sum" illogically signals that the activity described in this sentence summarizes Nazareth’s view of Presley’s music as an anthology. Instead, titling his course "Elvis as Anthology" is a way for him to promote this view. Choice C is incorrect. "That is" illogically signals that the activity described in this sentence is a clarification or interpretation of Nazareth’s view of Presley’s music as an anthology. Instead, titling his course "Elvis as Anthology" is a way for him to promote this view. Choice D is incorrect. "In addition" illogically signals that the activity described in this sentence is merely an additional fact about Nazareth. Instead, titling his course "Elvis as Anthology" is a way for him to promote his view of Presley’s music as an anthology.

Question Difficulty: Hard

# Question ID 6be089ec

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 6be089ec

A 2017 study of sign language learners tested the role of iconicity—the similarity of a sign to the thing it represents—in language acquisition. The study found that the greater the iconicity of a sign, the more likely it was to have been learned. \_\_\_\_\_ the correlation between acquisition and iconicity was lower than that between acquisition and another factor studied: sign frequency.

Which choice completes the text with the most logical transition?

- A. In fact,
- B. In other words,
- C. Granted,
- D. As a result,

ID: 6be089ec Answer

Correct Answer: C

Rationale

Choice C is the best answer. “Granted” logically signals that the information in this sentence—that iconicity is not as highly correlated with acquisition as sign frequency is—is true in spite of the information in the previous sentence about the positive correlation between iconicity and acquisition.

Choice A is incorrect because “in fact” illogically signals that this sentence either emphasizes or refutes the information in the previous sentence about the positive correlation between acquisition and iconicity. Instead, it provides information about a different correlation—that between acquisition and sign frequency. Choice B is incorrect because “in other words” illogically signals that this sentence merely restates the information in the previous sentence about the positive correlation between acquisition and iconicity. Instead, this sentence provides information about a different correlation—that between acquisition and sign frequency. Choice D is incorrect because “as a result” illogically signals that this sentence is a consequence of the information in the previous sentence about the positive correlation between acquisition and iconicity. Instead, this sentence provides information about a different correlation—that between acquisition and sign frequency.

Question Difficulty: Hard

# Question ID a2941bd8

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: a2941bd8

Iraqi artist Nazik Al-Malaika, celebrated as the first Arabic poet to write in free verse, didn’t reject traditional forms entirely; her poem “Elegy for a Woman of No Importance” consists of two ten-line stanzas and a standard number of syllables. Even in this superficially traditional work, \_\_\_\_\_ Al-Malaika was breaking new ground by memorializing an anonymous woman rather than a famous man.

Which choice completes the text with the most logical transition?

- A. therefore,
- B. in fact,
- C. moreover,
- D. though,

ID: a2941bd8 Answer

Correct Answer: D

Rationale

Choice D is the best answer. The first sentence tells us that Al-Malaika sometimes used "traditional forms". The second tells us that even when she used traditional forms, Al-Malaika was "breaking new ground". To connect these ideas, we need a contrast word like "but." "Though" is a contrast word similar to "but."

Choice A is incorrect. This isn’t a logical transition. The first sentence tells us that Al-Malaika sometimes used "traditional forms". The second tells us that even when she used traditional forms, Al-Malaika was "breaking new ground". To connect these ideas, we need a contrast word like "but." "Therefore" doesn’t show contrast; it shows cause and effect. Choice B is incorrect. This isn’t a logical transition. The first sentence tells us that Al-Malaika sometimes used "traditional forms". The second tells us that even when she used traditional forms, Al-Malaika was "breaking new ground". To connect these ideas, we need a contrast word like "but." "In fact" is a phrase that usually emphasizes the truth of the previous statement. Choice C is incorrect. This isn’t a logical transition. The first sentence tells us that Al-Malaika sometimes used "traditional forms". The second tells us that even when she used traditional forms, Al-Malaika was "breaking new ground". To connect these ideas, we need a contrast word like "but." "Moreover" doesn’t show contrast—it introduces additional information that continues or supports the previous idea.

Question Difficulty: Hard

# Question ID 232f78e7

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 232f78e7

In hindsight, given the ideas about the natural world circulating among British scientists in the 1800s, the theory of natural selection was an obvious next step. It may not have been a coincidence, \_\_\_\_\_ that Charles Darwin and Alfred Wallace arrived at the concept independently. Indeed, contrary to the popular myth of the lone genius, theirs is not the first paradigm-shifting theory to have emerged from multiple scholars working in parallel.

Which choice completes the text with the most logical transition?

- A. however,
- B. then,
- C. moreover,
- D. for example,

ID: 232f78e7 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Then" signals that this sentence’s claim about Darwin and Wallace follows logically from the previous information. In other words, both scientists independently arriving at the theory of natural selection was, arguably, an expected outcome of the circumstances mentioned in the previous sentence.

Choice A is incorrect because "however" illogically signals that the claim in this sentence contrasts with the previous information about the ideas circulating among British scientists in the 1800s. Instead, this claim follows logically from that information. Choice C is incorrect because "moreover" illogically signals that the claim in this sentence merely adds to the previous information about the ideas circulating among British scientists in the 1800s. Instead, this claim follows logically from that information. Choice D is incorrect because "for example" illogically signals that this sentence provides an example supporting the previous information about the ideas circulating among British scientists in the 1800s. Instead, it presents a claim that follows logically from that information.

# Question ID 72301503

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 72301503

If the formation of Earth’s mantle had been purely a product of core differentiation—whereby heavier elements sink toward the core and lighter elements rise—the upper mantle would be depleted of heavy siderophile elements. Siderophiles are much more abundant in the mantle than predicted in that model, however. \_\_\_\_\_ extraterrestrial material containing siderophiles, likely from asteroid or comet impacts, almost certainly accreted to Earth following core differentiation.

Which choice completes the text with the most logical transition?

- A. That said,
- B. Hence,
- C. For example,
- D. Likewise,

ID: 72301503 Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Hence" correctly signals that the claim in this sentence regarding extraterrestrial material follows logically from the information in the previous sentences. The previous sentences establish that siderophile elements in the mantle are more abundant than predicted in the core-differentiation model. This sentence claims, logically, that these elements came from extraterrestrial material that accreted to Earth *after* core differentiation.

Choice A is incorrect because "that said" illogically signals that the information in this sentence regarding extraterrestrial material is an exception to the previous information about siderophiles’ abundance in the mantle. Instead, it is a new claim that follows logically from the previous information. Choice C is incorrect because "for example" illogically signals that the information in this sentence regarding extraterrestrial material exemplifies the previous information about siderophiles’ abundance in the mantle. Instead, it is a new claim that follows logically from the previous information. Choice D is incorrect because "likewise" illogically signals that the information in this sentence regarding extraterrestrial material is merely similar to the previous information about siderophiles’ abundance in the mantle. Instead, it is a new claim that follows logically from the previous information.

Question Difficulty: Hard

# Question ID 5ef8db0f

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 5ef8db0f

In retrospect, one of the lessons of the 2003 Human Genome Project is that a gene is affected by many factors, not the least of which is its interactions with the protein products of other genes. \_\_\_\_\_ rather than just focusing on the human genome, efforts to better understand gene mutations related to disease have begun to consider the human proteome, the complete set of proteins expressed by human genes.

Which choice completes the text with the most logical transition?

- A. In other words,
- B. That said,
- C. For example,
- D. Accordingly,

ID: 5ef8db0f Answer

Correct Answer: D

Rationale

Choice D is the best answer. "Accordingly" logically signals that this sentence states a result or consequence of the previous information about the 2003 Human Genome Project. Taking into account an important lesson of the 2003 project (that a gene is affected by interactions with the protein products of other genes), research has begun to consider the human proteome instead of just the genome.

Choice A is incorrect because "in other words" illogically signals that the information in this sentence is a paraphrase or restatement of the previous information about the 2003 Human Genome Project. Instead, this sentence states a result or consequence of that information. Choice B is incorrect because "that said" illogically signals that the information in this sentence qualifies or contrasts with the previous information about the 2003 Human Genome Project. Instead, this sentence states a result or consequence of that information. Choice C is incorrect because "for example" illogically signals that this sentence provides an example supporting the previous information about the 2003 Human Genome Project. Instead, this sentence states a result or consequence of that information.

Question Difficulty: Hard

# Question ID da5e0d7d

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: da5e0d7d

Mountain climbing routes that incorporate metal rungs and cables are known as via ferratas, from the Italian phrase for “iron path.” As climbing these routes has shifted from a mode of travel to a sporting activity, modern via ferratas are rarely designed to simply reach a summit. \_\_\_\_\_ new routes favor recreation over utility, aiming to provide a challenging climb or showcase dramatic scenery.

Which choice completes the text with the most logical transition?

- A. Additionally,
- B. On the other hand,
- C. More often,
- D. Nonetheless,

ID: da5e0d7d Answer

Correct Answer: C

Rationale

Choice C is the best answer. "More often" logically signals that the claim in this sentence—that new via ferratas favor recreation over utility—explains a difference between the new "sporting activity" routes and the older "mode of travel" routes. In so doing, it emphasizes and reinforces the previous claim ("modern via ferratas are rarely designed to simply reach a summit").

Choice A is incorrect because "additionally" illogically signals that this sentence’s claim about new via ferratas adds a new, separate point to the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one. Choice B is incorrect because "on the other hand" illogically signals that this sentence’s claim about new via ferratas contrasts with or opposes the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one. Choice D is incorrect because "nonetheless" illogically signals that this sentence’s claim about new via ferratas is true despite the previous claim ("modern via ferratas are rarely designed to simply reach a summit"). Instead, the second claim—that new routes favor recreation over utility—emphasizes and reinforces the previous one.

Question Difficulty: Hard

# Question ID 857346cd

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 857346cd

The Madison is a type of line dance that involves neat rows of dancers performing a repeated sequence of steps in unison. \_\_\_\_\_ many other dances are also defined by order, repetition, and synchronicity, but the Madison is distinguished by its extreme uniformity; when an auditorium full of dancers performs the Madison, one almost gets the impression of a military march.

Which choice completes the text with the most logical transition?

- A. However,
- B. Of course,
- C. Specifically,
- D. Moreover,

ID: 857346cd Answer

Correct Answer: B

Rationale

Choice B is the best answer. "Of course" logically signals that the information that follows—about many dances being "defined by order, repetition, and synchronicity"—acknowledges an obvious similarity between these dances and the previous description of the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison.

Choice A is incorrect because "however" illogically signals that the information that follows contrasts with the previous description of the Madison. Instead, the information about many dances’ features acknowledges an obvious similarity between these dances and the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison. Choice C is incorrect because "specifically" illogically signals that the information that follows specifies or elaborates on the previous description of the Madison. Instead, the information about many dances’ features acknowledges an obvious similarity between these dances and the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison. Choice D is incorrect because "moreover" illogically signals that the information that follows adds to or expands on the previous description of the Madison. Instead, the information about many dances’ features acknowledges an obvious similarity between these dances and the Madison. The sentence then goes on to emphasize a distinguishing feature of the Madison.

# Question ID 1b588a81

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 1b588a81

In his 2023 collection *The Diaspora Sonnets*, Filipino American poet Oliver de la Paz leverages the sonnet form’s “diamond-like quality of precision,” as he describes it. The poems often adhere scrupulously to the form’s centuries-old conventions, such as its characteristic fourteen-line length. In the twelve-line poem “Diaspora Sonnet at the Feeders Before the Freeze,” \_\_\_\_\_ de la Paz playfully subverts sonnet conventions, the poem’s truncated length conveying a sense of abruptness.

Which choice completes the text with the most logical transition?

- A. fittingly,
- B. similarly,
- C. for example,
- D. by contrast,

ID: 1b588a81 Answer

Correct Answer: D

Rationale

Choice D is the best answer. “By contrast” logically signals that the information in this sentence—that one of de la Paz’s poems subverts sonnet conventions—contrasts with the previous information that his poems often adhere to sonnet conventions.

Choice A is incorrect because “fittingly” illogically signals that the information in this sentence is an appropriate or expected outcome of the previous information about de la Paz’s adherence to sonnet conventions. Instead, de la Paz’s subversion of sonnet conventions contrasts with that information. Choice B is incorrect because “similarly” illogically signals that the information in this sentence is similar to the previous information about de la Paz’s adherence to sonnet conventions. Instead, de la Paz’s subversion of sonnet conventions contrasts with that information. Choice C is incorrect because “for example” illogically signals that the information in this sentence exemplifies the previous information about de la Paz’s adherence to sonnet conventions. Instead, de la Paz’s subversion of sonnet conventions contrasts with that information.

Question Difficulty: Hard

# Question ID ff6dbb27

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: ff6dbb27

In response to adverse environmental conditions, many plants produce abscisic acid (ABA), a stress hormone. ABA triggers a slowdown in the biological processes of most plants. \_\_\_\_\_ when the mustard plant *Schrenkiella parvula* produces ABA in response to an environmental stressor, the hormone triggers accelerated growth.

Which choice completes the text with the most logical transition?

- A. Moreover,
- B. In contrast,
- C. For example,
- D. Thus,

ID: ff6dbb27 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “In contrast” logically signals that the information in this sentence—that ABA triggers accelerated growth in the mustard plant *Schrenkiella parvula*—contrasts with the previous information about ABA triggering a slowdown in most plants’ biological processes.

Choice A is incorrect because “moreover” illogically signals that the information in this sentence about the mustard plant merely adds to the previous information about the effects of ABA. Instead, it contrasts with that information. Choice C is incorrect because “for example” illogically signals that the information in this sentence about the mustard plant provides an example consistent with the previous information about the effects of ABA. Instead, it contrasts with that information. Choice D is incorrect because “thus” illogically signals that the information in this sentence about the mustard plant is a consequence, or result, of the previous information about the effects of ABA. Instead, it contrasts with that information.

Question Difficulty: Hard

# Question ID 51dddefe

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 51dddefe

A team of ornithologists documented patterns of conspecific brood parasitism among wood ducks (*Aix sponsa*) in California. The researchers observed several female wood ducks visiting dozens of nesting sites and laying eggs to be incubated by other nesting *A. sponsa*. Subject 7F64B, \_\_\_\_\_ visited a select few nesting sites before laying and incubating her eggs herself.

Which choice completes the text with the most logical transition?

- A. in particular,
- B. alternatively,
- C. for example,
- D. similarly,

ID: 51dddefe Answer

Correct Answer: B

Rationale

Choice B is the best answer. “Alternatively” logically signals that the information in this sentence—that Subject 7F64B incubated her own eggs—describes a contrasting alternative to the brood parasitism behavior described in the previous sentence, in which female wood ducks laid eggs to be incubated by other nesting ducks.

Choice A is incorrect because “in particular” illogically signals that Subject 7F64B’s behavior provides a specific, focused detail about, or example of, the brood parasitism behavior described in the previous sentence. Instead, Subject 7F64B’s behavior represents a contrasting alternative to that brood parasitism. Choice C is incorrect because “for example” illogically signals that Subject 7F64B’s behavior provides a specific example of the brood parasitism behavior described in the previous sentence. Instead, Subject 7F64B’s behavior represents a contrasting alternative to that brood parasitism. Choice D is incorrect because “similarly” illogically signals that Subject 7F64B’s behavior is similar to the brood parasitism behavior described in the previous sentence. Instead, Subject 7F64B’s behavior represents a contrasting alternative to that brood parasitism.

Question Difficulty: Hard

# Question ID a6499911

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: a6499911

Many historical accounts of the 1930s focus on the widespread movement of people from dust bowl–ravaged Great Plains states to faraway California. However, a 2016 study of 1940 census data complicates this popular narrative; \_\_\_\_\_ researchers determined, migrants in states hardest hit by prolonged droughts and dust storms—Colorado, Kansas, Oklahoma, and Texas—merely relocated within the region.

Which choice completes the text with the most logical transition?

- A. for this reason,
- B. more often,
- C. additionally,
- D. nevertheless,

ID: a6499911 Answer

Correct Answer: B

Rationale

Choice B is the best answer. “More often” logically signals that the historical outcome in this clause—dust bowl migrants’ relocation within the Great Plains region—was more common than the movement to California described in many historical accounts.

Choice A is incorrect because “for this reason” illogically signals that the historical outcome in this clause was caused by either the narrative about widespread movement to California or the 2016 study’s complication of that narrative. Instead, dust bowl migrants’ regional relocation was found to be more common than the movement to California described in many historical accounts. Choice C is incorrect because “additionally” illogically signals that the historical outcome in this clause merely adds to either the narrative about widespread movement to California or the 2016 study’s complication of that narrative. Instead, dust bowl migrants’ regional relocation was found to be more common than the movement to California described in many historical accounts. Choice D is incorrect because “nevertheless” illogically signals that the historical outcome in this clause is true despite either the narrative about widespread movement to California or the 2016 study’s complication of that narrative. While the findings about dust bowl migrants’ regional relocation did challenge the previous narrative, they did not challenge the study’s findings, and this choice creates a confusing ambiguity. Instead, dust bowl migrants’ regional relocation was found to be more common than the movement to California described in many historical accounts.

Question Difficulty: Hard

# Question ID 2fbd7456

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 2fbd7456

When soil becomes contaminated by toxic metals, it can be removed from the ground and disposed of in a landfill. \_\_\_\_\_ contaminated soil can be detoxified via phytoremediation: plants that can withstand high concentrations of metals absorb the pollutants and store them in their shoots, which are then cut off and safely disposed of, preserving the health of the plants.

Which choice completes the text with the most logical transition?

- A. Alternatively,
- B. Specifically,
- C. For example,
- D. As a result,

ID: 2fbd7456 Answer

Correct Answer: A

Rationale

Choice A is the best answer. “Alternatively” logically signals that the soil decontamination method described in this sentence—removing toxic metals from the soil via phytoremediation—offers an alternative to the previously described method (removing the contaminated soil from the ground).

Choice B is incorrect because “specifically” illogically signals that the soil decontamination method described in this sentence specifies or elaborates on an aspect of the previously described method (removing the contaminated soil from the ground). Instead, phytoremediation is an alternative to that method. Choice C is incorrect because “for example” illogically signals that the soil decontamination method described in this sentence is an example of the previously described method (removing the contaminated soil from the ground). Instead, phytoremediation is an alternative to that method. Choice D is incorrect because “as a result” illogically signals that the soil decontamination method described in this sentence is a result or consequence of the previously described method (removing the contaminated soil from the ground). Instead, phytoremediation is an alternative to that method.

Question Difficulty: Hard

# Question ID a3df6d00

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: a3df6d00

Because an achiral molecule is symmetrical, flipping it yields a structurally identical molecule. A flipped chiral molecule, \_\_\_\_\_ can be compared to a glove that has been turned inside out: it produces a structurally inverted molecule rather than an identical one.

Which choice completes the text with the most logical transition?

- A. in other words,
- B. by contrast,
- C. for example,
- D. similarly,

ID: a3df6d00 Answer

Correct Answer: B

Rationale

Choice B is the best answer. This sentence compares a chiral molecule to an achiral one. It discusses how when a chiral molecule is flipped, it results in something very different than when an achiral molecule is flipped. So the transition "by contrast" fits the context perfectly.

Choice A is incorrect. This choice uses a transition that indicates a restatement of the same idea in different words. But this sentence doesn't restate the same idea as the previous sentence. Instead, it makes a new point about a different type of molecule (chiral instead of achiral). Choice C is incorrect. This choice uses a transition that introduces an example, which doesn't make sense here. The second sentence isn't an example of the first sentence's claim about achiral molecules: it actually introduces an entirely different idea that focuses on chiral molecules. Choice D is incorrect. This choice uses a transition that indicates the addition of an agreeing idea. But this sentence shows a contrast with the first sentence—namely, that a chiral molecule acts very differently from an achiral molecule when flipped.

Question Difficulty: Hard

# Question ID 46d91c77

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: 46d91c77

In 2009, the Craft and Folk Art Museum in Los Angeles hosted a special exhibition, *Sueños/Yume*, showcasing the works of local sculptor Dora de Larios. As suggested by the show’s title (*sueños* and *yume* mean “dreams” in Spanish and Japanese, respectively), de Larios’s art reflects a mix of cultural influences. \_\_\_\_\_ her work is grounded in the artistic traditions of both Mexico and Japan.

Which choice completes the text with the most logical transition?

- A. In addition,
- B. In contrast,
- C. Specifically,
- D. Therefore,

ID: 46d91c77 Answer

Correct Answer: C

Rationale

Choice C is the best answer. “Specifically” logically signals that this sentence provides specific, precise details elaborating on the previous sentence’s claim that de Larios’s art reflects a mix of cultures. This sentence specifies which cultures the previous sentence is referring to: the artistic traditions of both Mexico and Japan.

Choice A is incorrect because “in addition” illogically signals that the information in this sentence is a separate point that follows the previous claim about de Larios’s art. Instead, it provides specific details elaborating on that claim. Choice B is incorrect because “in contrast” illogically signals that the information in this sentence contrasts with the previous claim about de Larios’s art. Instead, it provides specific details elaborating on that claim. Choice D is incorrect because “therefore” illogically signals that the information in this sentence is a result of the previous claim about de Larios’s art. Instead, it provides specific details elaborating on that claim.

Question Difficulty: Hard

# Question ID eeb21aae

| Assessment | Test                | Domain              | Skill       | Difficulty                                   |
|------------|---------------------|---------------------|-------------|----------------------------------------------|
| SAT        | Reading and Writing | Expression of Ideas | Transitions | <div><div></div><div></div><div></div></div> |

ID: eeb21aae

The prime meridian, the global indicator of zero degrees longitude established in 1884, was originally determined using astronomically derived coordinates. \_\_\_\_\_ as decades passed, new calculations would reveal increasingly precise coordinates, yet the prime meridian remained unchanged; it wasn't until the 1980s that, spurred by improved geodetic data, the prime meridian was officially moved—roughly one hundred meters east.

Which choice completes the text with the most logical transition?

- A. Specifically,
- B. To that end,
- C. Again and again,
- D. Granted,

ID: eeb21aae Answer

Correct Answer: C

Rationale

Choice C is the best answer. "Again and again" logically signals that the information in this sentence—that new calculations revealed increasingly precise coordinates for the location of the prime meridian—refers to events that occurred multiple times in the decades after the establishment of the prime meridian in 1884 (which is described in the preceding sentence).

Choice A is incorrect because "specifically" illogically signals that the information in this sentence provides specific, precise details elaborating on the description of the prime meridian's establishment in the previous sentence. Instead, the sentence indicates that increasingly precise coordinates were revealed on multiple occasions in the decades following the meridian's establishment. Choice B is incorrect because "to that end" illogically signals that the information in this sentence is a means of accomplishing a goal established in the previous sentence about the prime meridian's establishment. Instead, the sentence indicates that increasingly precise coordinates were revealed on multiple occasions in the decades following the meridian's establishment. Choice D is incorrect because "granted" illogically signals that the information in this sentence is in opposition to the information about the prime meridian's establishment in the previous sentence. Instead, the sentence indicates that increasingly precise coordinates were revealed on multiple occasions in the decades following the meridian's establishment.

Question Difficulty: Hard
